

MEMORANDUM FOR: Angus Thuermer

The figure used in the TV station's editorial probably was from testimony by the DCI in October 1973 -- leaked and used out of context. The full transcript is highly classified and, according to OLC, not likely to be declassified or released in the foreseeable future.

In any event, there's nothing to be gained by reviving this debate. I suggest we not exercise our right to reply, which was proffered in routine fashion by form letter.
